

2021 | NO WORRIES

MOOMBA® BOATS

Captain's **HANDBOOK**

GO AHEAD, BE A HERO.

WHEN YOU BECOME A CAPTAIN, YOU GROW IN INTERESTING WAYS. YOU'LL LEARN TO TIE MANY NAUTICAL KNOTS. YOU DEVELOP AN AFFINITY FOR SPARE SUNGLASSES. A MUSTACHE SUDDENLY SEEMS APPROPRIATE. BUT, THE BIGGEST THING YOU'LL LEARN IS THAT SPREADING JOY AND SPREADING WATER ARE THE SAME THING. AT LEAST IN OUR BOOK. SO IF YOU'VE GOT THE COURAGE TO PICK UP THIS HANDBOOK, THEN YOU'VE GOT WHAT IT TAKES TO MAN THE HELM. ALL THAT'S LEFT IS TO FIND YOUR MOOMBA, GATHER YOUR PEOPLE, GRAB YOUR FAVORITE BOARD AND HIT THE WATER. THE REST OF YOUR WORRIES JUST MELTED AWAY.

CAPTAIN ON, CAPTAIN.

Captain WITH CONFIDENCE.

CONVERT PERFORMANCE INTO REALLY, REALLY GOOD TIMES.

We get it. You want everyone to have fun. We assure you, future captain, they will. Because Moomba's wake technology and factory performance are legendary. Which means you blow rival captains out of the water, and your friends will sit in awe of your newfound aquatic powers.

NO WORRIES RELIABILITY ON THE WATER

When you own a Moomba there's only one thing to worry about: The cruel certainty of the setting of the sun. But there's always tomorrow. Why? Because Moomba boasts industry-leading reliability through our protection plan that's led to 15 straight CSI awards and tons of happy captains.

CAPTAIN IN COMFORT

Comfort is second on our to-do list—even though it's third in this one—because making a grade-A water chariot that works for a long, long time comes first. So every Moomba boasts a fit and finish that's untouchable in its class. Which is sad for our competitors, because it feels really, really nice.

DO BOAT THINGS. HAVE BOAT FUN.

Smiles are abundant on a Moomba. It's science. Our boats make wake and surf vibes even vibe-ier. We make fun, funner. (Yes it's a word). You can do it with our tried-and-true formula: Load up your crew, grab the helm and add a few thousand pounds of ballast. Then captain away.

AUTOWAKE

WE'LL HELP YOUR DRIVING SKILLS *shine.*

As the driver, you have a lot of responsibility. So let us take thousands of pounds of weight off your shoulders with AutoWake®. Now standard on every Moomba, our patented technology shines as a wakesurf and wakeboard autopilot system so you can keep your focus where it should be—on delivering a great day on the water.

HERE ARE ALL THE TECHNICAL SETTINGS WE TOOK OFF YOUR PLATE.

AMPLITUDE

AutoWake senses how deep your hull sits in the water and, relative to your desired wake or wave setting, shows you the predicted wake or wave amplitude.

Why It Matters: The deeper the boat, the more water gets displaced. AutoWake measures and manages variables like the number of people, ballast, fuel and gear to automatically manage the position of your Moomba's hull.

PITCH

AutoWake measures the pitch of your boat against your desired wake or wave setting and adjusts accordingly.

Why It Matters: Too much pitch, you get a tall wave that dies quickly, too little and you have a long wave with little push. AutoWake gets it just right.

NEW THIS YEAR: GO HOME LEVELING

In the face of unstable water and moving passengers, we can still make your Moomba rock-solid. This new AutoWake® feature independently adjusts each Flow Surf Plate to create a comfortable, stable ride when you're headed home.

ROLL

Passengers inside your boat affect the roll of the hull. AutoWake® continuously measures the onboard weight distribution and adjusts ballast accordingly.

Why It Matters: Small changes in the roll of your boat are the difference between a rampy, clean lip and a mushy wave full of whitewash. Nobody wants a mushy wave.

The Walk-Across Sundeck makes it easy to get to the platform, take a dip, or just soak up some rays.

Raptor by Indmar Engines prove you can never have too much of a good thing. In this case, torque.

The wireless charger ensures the only knots tied on your boat are the ones you tie yourself.

Flow 2.0 Surf System delivers long pockets and clean lips session after session.

Higher Standards

**WE'RE NOT LIKE
THE OTHER BOATS.**

Every Moomba is loaded with standard features and can be fully customized. Why? Because you're not like other captains: You have excellent taste and an eye for detail. So every Moomba that comes off our line is thoughtfully designed and carefully inspected so it looks, sounds, feels and drives unlike anything else on the water. You'll get noticed for all the right reasons.

OUR STANDARD HEAD-TURNERS:

- | | |
|---------------------------------------|----------------------------|
| AutoWake® | Bow Filler Cushion |
| Flow 2.0 Surf System | Interior LED Lighting |
| GatorStep | Wet Sounds™ Speaker System |
| Fixed Wakeboard Racks | Wireless Charging |
| Fusion® Bluetooth® Stereo | Indmar 400 Engine |
| Adjustable Driver's Seat with Bolster | Boatmate Trailer |
| | + More |

GO AHEAD, BE A HERO.

You absolutely should judge a boat by its cover. But what's on the inside also counts. So we went ahead and took care of it all.

Upgrades

AT LAST, YOU REALLY CAN HAVE IT ALL.

The Pro Tower and bimini with surf storage finally ended the great form vs. function debate. We chose both.

The optional heater extends your sessions so you can stay out longer and stay comfortable doing it.

G6 Ballast system adds extra pumps to make light work of really heavy water.

Underwater lights are the perfect accent to any Moomba with the added benefit of alerting the fish to your captainship.

Your towboat inherently sits at sea level, but you can still take it to new heights. We call it the Moomba Paradox. With a wide range of upgrades across surf systems, storage and sound, you can send your captainship into another stratosphere in the eyes of your friends and family.

OTHER-WORLDLY UPGRADES:

- Flow 3.0 Surf System
- Upgraded Wet Sounds™ System
- Graphics & Gel Options
- Pro Tower
- Tower Appearance Upgrades
- Triton Board Racks
- Transom Remote

GO AHEAD, BE A HERO.

LOOKING TO SPREAD LARGE AMOUNTS OF WATER AND FRIENDSHIP? YOU'LL NEED A BIG BOAT.

To oversimplify the laws of physics and boat engineering: Our biggest boat holds the most people. As a future captain, that means avoiding the awkwardness of choosing between friends. Now, you can invite your whole crew, fill the 4,000 lbs of standard ballast, and let the good times roll.

**WHEN WE SAY "YOU'LL BE SITTING PRETTY",
WE MEAN THAT LITERALLY.**

We'll ask that you actually do judge this book by its cover. And its contents. Pretty and powerful, the Moomba Kaiyen pulls a standard 3,700 lbs of ballast, punching well above its weight class for endless good times.

20' *Mondo* ALL-NEW

GO AHEAD, BE A HERO.

RELATIVELY SPEAKING, THE BEST THINGS DO COME IN SMALL PACKAGES, BUT THIS IS STILL 20 FEET. A BIG 20 FEET.

There are times in life when you have to settle. This just isn't one of them.

The ALL-NEW Mondo is our newest boat, a crossover that allows you to ski, wakeboard and surf with cutting edge performance and a ridiculous 3,700 lbs of factory ballast. It's our latest and greatest way to recycle water into really ridiculous times.

2021 | MOOMBA.COM/CRAZ

THIS TOWBOAT—LIKE MOST WATER SPORTS—HINGES ON IMPRESSIVE BALANCE.

If you're looking for a mid-sized option that can throw plenty of water, look left. Or up. Or turn the page. With timeless looks and performance, the Craz is a classic. Proving our suspicion correct: That the fountain of youth indeed moves water leaving plenty of good times in its wake.

STILL WATERS DO RUN DEEP. IN THIS CASE, WITH THE HELP OF 4,000 LBS OF BALLAST.

If you think about it, everything above water on the Max is a portrait of family fun. Everything below? A tug-of-war between its deep hull and the depths. So if you want an absolute workhorse that displaces large amounts of water underneath while making it look easy on the surface, this is your boat.

FEATURES FIT FOR WORTHY CAPTAINS.

- A.** Unmatched stability and control on the water meets unmatched stability and control for your feet with our GatorStep flooring.
- B.** It's clear to see the effort and detail put into every Moomba Max. And by "clear" we mean the windshield. A new design complements the tower and makes this sleek boat even sleeker.
- C.** There's already plenty of room and comfort to go around but we made a spacious bow with a filler cushion just in case.

Every captain is different. We'd never try to clothe a Vivid Orange commander of the lake in Intense Green. That obviously just wouldn't work. It wouldn't be you. With our options, graphics and gels, you choose how you want to show up. We'll do the rest. Go to Moomba.com, choose your canvas and paint away.

IT'S NOT MOOMBA'S TROPHY CASE, IT'S OUR TROPHY CASE. We have won 15 consecutive industry-benchmark NMMA CSI awards, the most in this segment. We've done it by focusing on finding new ways to make captain's lives easier on the water, and making you proud to own a Moomba. The rest is just a formality.
